

Beyond A Misty Shore: An Utterly Compelling Saga Of Love And Family

An unforgettable saga of forbidden love, family relationships, secrets and the quest for happiness. Much-loved author Lyn Andrews writes a touching and evocative saga of the aftermath of war in Beyond a Misty Shore. Not to be missed by fans of Maureen Lee and Joan Jonker. It is 1945 and the war is finally over. But for sisters Sophie and Maria, who have no choice but to leave their beloved home on the Isle of Man, the upheaval is just beginning. Eighteen-year-old Maria is loath to leave the island as it's there she met Hans Bonhoeffer, a young Austrian interned during the war. For widowed Sophie, however, Liverpool offers exciting opportunities. As Maria longs for a reunion with Hans, Sophie is drawn to Frank Ryan, a man who is not free to be with her. Will the sisters ever find happiness? What Amazon readers are saying about Beyond a Misty Shore: 'Lyn brings her characters to life, with a few surprising twists and turns along the way' 'Another excellent book from this author. The aftermath of WW2 and the impact it had on Liverpool were beautifully described. The behaviour and attitudes of the characters were brilliantly portrayed with a balance of everyday life mixed with love and hope. Altogether a smashing book'

In her nostalgic and heart-warming new saga, Sunday Times bestselling author Lyn Andrews evokes the ups and downs of life in the back streets of 1930s Liverpool Liverpool, 1935. Monica Savage is delighted when new neighbours move in next door, and she and Joan Copperfield quickly become firm friends. While Monica's father has a good job as a guard on the railway, Joan's family are harder up, with her sailor dad Billy mostly off at sea, and restless when he's home - Mersey View is no substitute for the exotic places he sails to. Though money's tight, the Copperfield women are spirited and independent, and it's her friendship with the more confident Joan that gives Monica the courage to challenge her parents and pursue her dream of becoming a hairdresser. Joan is lucky enough to get a job at Crawford's biscuit factory, where she's even allowed to buy broken biscuits cheaply as a perk. But there are dark secrets lurking. When an abandoned child arrives unexpectedly on the Copperfields' doorstep, her arrival will change everything. As war clouds gather, can the girls make their back street dreams reality, or will the families of Mersey View be torn apart?

Bees are essential for human survival—one-third of all food on American dining tables depends on the labor of bees. Beyond pollination, the very idea of the bee is ubiquitous in our culture: we can feel buzzed; we can create buzz; we have worker bees, drones, and Queen bees; we establish collectives and even have communities that share a hive-mind. In Buzz, authors Lisa Jean Moore and Mary Kosut convincingly argue that the power of bees goes beyond the food cycle, bees are our mascots, our models, and, unlike any other insect, are both feared and revered. In this fascinating account, Moore and Kosut travel into the land of urban beekeeping in New York City, where raising bees has become all the rage. We follow them as they climb up on rooftops, attend beekeping workshops and honey festivals, and even put on full-body beekeping suits and open up the hives. In the process, we meet a passionate, dedicated, and eclectic group of urban beekeepers who tend to their brood with an emotional and ecological connection that many find restorative and empowering. Kosut and Moore also interview professional beekeepers and many others who tend to their bees for their all-important production of a food staple: honey. The artisanal food shops that are so popular in Brooklyn are a perfect place to sell not just honey, but all manner of goods: soaps, candles, beeswax, beauty products, and even bee pollen. Buzz also examines media representations of bees, such as children's books, films, and consumer culture, bringing to light the reciprocal way in which the bee and our idea of the bee inform one another. Partly an ethnographic investigation and partly a meditation on the very nature of human/insect relations, Moore and Kosut argue that how we define, visualize, and interact with bees clearly reflects our changing social and ecological landscape, pointing to how we conceive of and create culture, and how, in essence, we create ourselves.
