Each nation has its heroes and its villains. And whatever Historians may convey about either, it only becomes meaningful to a people when it is told by their own; because, only they truly value and aspire to uphold and to protect their heritage. A people, any people stand to prescribe their own extinction once they choose to neglect their heritage. The Author of "Guardian Angel," probes and fathoms this subject, challenging the conscience of a people over their heritage...the ups and downs which reflect man's aspirations through...not just one or two or even three generations but ever; because in life nothing stands still; life is an endless cycle of happiness and sadness; success and failure; nobility and improbity. The perennial constant in all this is integrity in fortitude! Possessing or not possessing it identifies us with our Maker within our heritage. HISTORY SAYS THAT THE HOLOCAUST ENDED IN 1945 ...but for many, it will never be over... Red-haired, freckle-faced, green-eyed Markus worries about things that bother many middle-school boys: When will my body fill out? When will my voice lower? When will I grow body hair? He wants puberty to hurry up and do its job so he can hang with the cool kids. He doesn't spend a lot of time thinking about his grandmother's experiences during the Holocaust. But when three of the A-listers ask him to work with them on their social studies Holocaust project, he sees his chance. He knows they want him on their team because of his ailing grandmother, who has a tattoo on her arm from her time in Auschwitz during the Holocaust. He reluctantly decides to talk to her. When Markus asks her about her time in Auschwitz, she violently refuses to discuss it. Her over-the-top reaction shocks Markus, and he's torn between his loyalty to her and the peer pressure at school. No matter what, though, he doesn't want to miss his chance to improve his social status. When a classmate announces that his project will prove that the Holocaust never happened, Markus pictures his old, sick grandmother in the nursing home, and he vows to disprove the student's claim. A voice from the past accuses his grandmother of crimes during the Holocaust, and Markus's world quickly spirals out of control. Then, because of Markus's well-intentioned effort to find someone who knew his grandmother during the war, a stranger who knew her in Auschwitz surfaces with shocking and mysterious secrets, and Markus has to come to an entirely new understanding of what the truth actually is. Suddenly, the Holocaust is not just a chapter in his history book...it's his life. For Ruby Moore life is far more complicated than that of your average teen, for she is in no way average. Ruby is a vampire and her life as a vampire is far from traditional... It has been one year since her normal life was brutally taken from her. Still adjusting to the shock of the change from mortal to immortal, her world is rocked again and she is taken under the wings of a guardian angel back to Sage Sanctum, a school beyond reach from the vampires that are determined to destroy her. There, she is freed from her vampire chains and her normal needs and urges return. However, a new urge arises... Lust. A forbidden lust toward her savior, her guardian angel. Attempting to control these desires is difficult, very difficult and when things couldn't possibly get any worse, her situation becomes life or death as someone, somewhere in the school is aiding those who want her dead.

Not unlike all our lives this book is a series of stories, separate but interconnected. They are all true with the exception of some literary license where details were lost in the telling and retelling. Guardian Angel 911 will provide an insight to the sojourn of a native, born in the isolated hammocks and swamps of the real Florida, before the population exploded in the third quarter of the twentieth century.

After a difficult childhood and a turbulent stint in the military, Declan Burke finally got his act together. Now he's a battle-hardened professional bodyguard who takes his job at McKay-Taggart seriously and his playtime - and his playmates - just as seriously. One thing he never does, however, is mix business with pleasure. But when the mysterious, gorgeous Suzanne D'Angelo needs his protection from a stalker, his desire for her burns out of control, tempting him to break all the rules...even as he's drawn into a dark, dangerous world he didn't know existed. Suzanne is an earthbound angel on her critical first mission: protecting Declan from an emerging supernatural threat at all costs. To keep him close, she hires him as her bodyguard. It doesn't take long for her to realize that she's in over her head, defenseless against this devastatingly sexy human who makes her crave his forbidden touch. Together they'll have to draw on every ounce of their collective training to resist each other as the enemy closes in, but soon it becomes apparent that nothing could have prepared them for the menace to their lives...or their hearts.

A collection of children's stories by international bestselling author Lorna Byrne. Lorna Byrne says we all see angels when we are young children, but are gradually conditioned to screen them out. Here, for the first time, she has written stories, inspired by real life, of seven children whose lives were transformed and made better by their interaction with their guardian angels. Among these, there is a story of a little girl called Suzy, paralysed from birth and unable to play with other children. Angels play with her and bring her great happiness. In another story a little girl called Emma is mean to her classmates and gets her little brothers into trouble at home. Her guardian angel gradually prompts her towards a more harmonious and happy life. Tommy feels he is an outsider because he is no good at football. Then with his guardian angel's loving help and attention, Tommy scores a brilliant goal! Lorna began telling stories to her daughter Aideen at an age when, like all children, she was beginning to focus far more on the material world and less on spiritual influences. These stories are written to show children the ways in which they can ask for help from their guardian angels and perhaps even to catch a glimpse of them.

“ A fabulous read, filled with heroism, history, and hi-jinks, as author William F. Sine recounts his life as an Air Force Pararescue Jumper ” (Readers ’ Favorite). US Air Force Pararescue is the most skillful and capable rescue force in the world, taking on some of the most dangerous rescue missions imaginable. PJs (short for para-jumpers), are members of an elite unit whose commando skills are so wide-reaching they often seem like something out of science fiction. They routinely tackle perilous operations that are beyond the capabilities of other rescue organizations, and sometimes dare the seemingly impossible. Since their inception in 1947, PJs have saved more than thirty thousand lives. They can pluck near-frozen climbers off jagged mountaintops and recover shot-down jet pilots stranded deep in hostile territory. In the dead of night, the PJs parachute into ominous, black, twenty-foot-tall waves to save distressed seamen, and they brave the cruelest and most desolate deserts to recover victims. US Air Force pararescuemen have played a prominent role in every armed conflict since the Korean War, rescuing thousands of soldiers from behind enemy lines. Guardian Angel provides a rare glimpse at a PJ ’ s mind-blowing adventures. You follow Sgt. Sine ’ s trek across exotic lands and share his encounters with mysterious cultures. Learn what it takes to lower from a helicopter onto the slippery decks of storm-tossed ships to rescue dying sailors. Feel what it ’ s like to be caught in the middle of a bomb blast so powerful that it tears high-rise buildings in half, and flattens armored vehicles hundreds of yards away. Soar high above towering jungle trees and experience the danger of swinging on a slim cable below a helicopter, while performing a mid-air rescue of a pilot, dangling from his chute a hundred feet above a mountain slope. Go to war in Afghanistan and parachute onto a nocturnal battlefield, surrounded by land mines, to help a mortally wounded soldier. This is a deadly serious business: When things go wrong, they can go terribly wrong. Aircraft crash into mountainsides, killing all onboard, while some PJs live through horrendous helicopter crashes only to struggle with freezing temperatures, snapped limbs and torn flesh in a desperate fight for survival. This book presents true stories of uncommon courage told from the perspective of the actual men in the arena. PJs belong to an exclusive brotherhood and forge unbreakable bonds of loyalty, commitment, and sacrifice. They do these things for their country, to protect their brothers in arms, and to honor their motto: “ That Others May Live. ”

I was amazed to discover instructions on how to "meet" your Guardian Angel that were thousands of years old. This changed my entire life. I no longer had to look to others for spiritual authority or wisdom. Then I discovered that every culture had within it the concept of a Guardian Angel or Guardian Spirit, or Ally. Traditional folklore has spoken of guardian angels who guide and protect us. However, although there are numerous stories of the miraculous intervention of these beings, some people still write them off as myth and superstition. Based on his own personal experience and cognition, Rudolf Steiner spoke of guardian angels and other spiritual beings as a reality. Their existence, he said, is a spiritual and scientific fact that can be researched and studied by clairvoyance. One of his aims was to enable people to connect again with these spiritual beings not only for their own benefit, but also for the benefit of the other kingdom of nature and the whole destiny of the earth's evolution. In his writings and lectures Steiner intended to lead people from belief to recognition, knowledge, and understanding of spiritual beings. In these six specially selected lectures, which until now have lain hidden away in very early publications or journals, he describes the role of the guardian angel and discusses our relationship to the heavenly hierarchies of spiritual beings as a whole and how they shape our human form as a result of their cosmic activity. As many people today are awakening to angelic guidance in their daily lives and are seeking it consciously, these lectures will help them to understand their experiences and to make their communication more conscious.

"Angel of God, My Guardian Dear to whom God's love commits me here. Ever this day be at my side to light and guard and rule and guide. Amen." That little prayer was instilled in me from early childhood when my parent's would put me to bed, or when I was ill, or when under any stress. I always knew that I had a guardian angel with me throughout my life. A number of years ago, I met an ordained minister who introduced me to the spiritual aspect of guardian angels. Rev. Let's pretend that I was killed on that day, when I wasn't. The day when my guardian angel managed to throw my F-86F half a second from becoming a fireball in the desert, up into a clear sky, way above what would have been the impact point. If she hadn't done this, if she hadn't spared my life time after time in the 80-some years that we've been together, I wouldn't have written this book that brings those strange times together, and suggests why we choose any lifetime in the first place. For 78 of those years, I had no idea that she existed, hadn't heard about guardian angels and what their job might be. Hadn't heard that our angel stays with us from the minute we're born till the time that our mission is done, and we come home to the place we call heaven. Today I've just about finished a lifetime, and at last I can understand what it is that we do as mortals, and why we choose these over all the other possibilities. Thank you, dear guardian angel, and please consider that with your consent and signature, our contract will extend to yet another lifetime.
