"On every page Lodato's prose sings with a robust, openhearted wit, making Edgar & Lucy a delight to read...Lodato keeps us in his thrall because his grip on the tiller stays reassuringly firm. Not to mention the supporting cast he's gathered, a group so eclectic and beguiling that many of them could carry an entire novel of their own. A riveting and exuberant ride." - Cynthia D'Aprix-Sweeney, The New York Times Book Review "Wonder-filled and magisterial...Lodato's skill as a poet manifests itself on every page, delighting with such elegant similes and incisive descriptions...His skill as a playwright shines in every piece of dialogue...And his skill as a fiction writer displays itself in his virtuoso command of point of view. The book pushes the boundaries of beauty." - Chicago Tribune "Edgar isn't like other boys and Lucy isn't like other moms, but grandma Florence keeps them tied to reality. And then their lives take a sharp turn...This otherworldly tale will haunt you." - People Magazine "A stunningly rendered novel" - Entertainment Weekly "A quirky coming-of-age novel that deepens into something dark and strange without losing its heart or its sense of wonder." —Tom Perrotta, bestselling author of *The Leftovers* Edgar and Lucy is a page-turning literary masterpiece, a stunning examination of family love and betrayal. Eight-year-old Edgar Fini remembers nothing of the accident people still whisper about. He only knows that his father is gone, his mother has a limp, and his grandmother believes in ghosts. When Edgar meets a man with his own tragic story, the boy begins a journey into a secret wilderness where nothing is clear, not even the line between the living and the dead. In order to save her son, Lucy has no choice but to confront the demons of her past. Profound, shocking, and beautiful, Edgar and Lucy is a thrilling adventure and the unlikeliest of love stories. "This tale gradually exerts a fiendish grip on the reader." —Helen Simonson, author of *Major Pettigrew's Last Stand* "I tore through the luminous pages of Edgar and Lucy as if possessed...What this book has to say about love and truth will stay with me for a very, very long time." —Sophie McManus, author of *The Unfortunates* "I love this book. Profoundly spiritual and hilariously specific...an unusual and intimate epic that manages to capture the wonder and terror of both child and parenthood with an uncanny clarity." —Lena Dunham, bestselling author of *Not That Kind of Girl* "Victor Lodato may be our bard of the sadness, humor, and confusion of loss. He senses the absurdities and elation of mourning and childhood with a capacious precision that brings to mind J.D. Salinger, Lorrie Moore, Karen Russell, even James Joyce. Edgar and Lucy will make you feel things you haven't felt in ages." —Daniel Torday, author of *The Last Flight of Poxl West*

PUBLISHERS WEEKLY BEST BOOK OF THE YEAR In "one of the most sensitive, nuanced examinations of father and son relationships" (The Boston Globe), award-winning writer Chris Offutt struggles to understand his recently deceased father, based on his reading of the 400-plus novels his father—a well-known writer of pornography in the 1970s and 80s—left him in his will. Andrew Offutt was considered the "king of twentieth-century smut," with a writing career that began as a strategy to pay for his son's orthodontic needs and soon took on a life of its own, peaking during the 1970s when the commercial popularity of the erotic novel reached its height. With his dutiful wife serving as typist, Andrew wrote from their home in the Kentucky hills, locked away in an office no one dared intrude upon. In this fashion he wrote more than four hundred novels, including pirate porn, ghost porn, zombie porn, and secret agent porn. The more he wrote, the more intense his ambition became and the more difficult it was for his children to be part of his world. Over the long summer of 2013, his son, Chris, returned to his hometown to help his now widowed mother move out of his childhood home. As he began to examine his father's manuscripts and memorabilia, journals, and letters, he realized he finally had an opportunity to gain insight into the difficult, mercurial, sometimes cruel man he'd loved and feared in equal measure. Only in his father's absence could he truly make sense of the man and his legacy. In *My Father, the Pornographer*, Offutt takes us on the journey with him, reading his father's prodigious literary output as both a critic and as a son seeking answers. He "enters the darkest and most mysterious of places—the cave of a monstrous enigma named Andrew J. Offutt—armed with nothing but his own restless curiosity. Spoiler alert: He makes it out alive, walking into the daylight to bring us a deeper, funnier, more tender and more heartbroken truth—and his masterpiece" (Michael Chabon).

Read the book that inspired the movie! Sixteen-year-old Starr lives in two worlds: the poor neighbourhood where she was born and raised and her posh high school in the suburbs. The uneasy balance between them is shattered when Starr is the only witness to the fatal shooting of her unarmed best friend, Khalil, by a police officer. Now what Starr says could destroy her community. It could also get her killed. Inspired by the Black Lives Matter movement, this is a powerful and gripping novel about one girl's struggle for justice.

Celebrate the world's most seductive instrument. An obsessive, full-color book in the irresistible format of *Shoes and Handbags*—which together have over 700,000 copies in print—guitarS delivers a feast of 500 guitars in vibrant color, plus players, makers, legends, myths, and more. Here are guitars that made history, that changed the course of music, that inspired new generations of players and listeners. Here are milestones in the guitar's search for its true self—Torres's classical, the amazing Gibson L-5—and experiments that ushered in a new world of sound—Rickenbacker's "Frying Pan" and Les Paul's "Log." Plus B. B. King's Lucille, Willie Nelson's Trigger, Eric Clapton's Brownie, the J-160E that John Lennon played during his 1968 "bed-in" with Yoko, Jimi Hendrix's hand-painted Flying V in full psychedelic regalia. And the far-out Gittler—no body, no neck, no peghead, yet every inch a guitar. Also here are profiles of famous builders, including C. F. Martin, Orville Gibson, Leo Fender—the Henry Ford of guitars—and the mad genius Lloyd Loar. And individual luthiers, like Linda Manzer (her Pikasso II has 42 tunable strings), the maverick Ken Parker, and old-world artisan John D'Angelico, staring at skyscrapers from his Lower East Side shop and creating the ultimate art deco

masterpiece, "The New Yorker." Marrying visual pleasure with layers of information, *Guitars* captures the soul, the significance, history, magic, and the raw mojo of this most beloved of instruments.

More than 200 luscious photographs present gardens from the length and breadth of Maine. Intimate, conversational text chronicles the diversity of Maine gardens. Our political system in America is broken, right? Wrong. The truth is, the American political system is working exactly how it is designed to work, and it isn't designed or optimized today to work for us—for ordinary citizens. Most people believe that our political system is a public institution with high-minded principles and impartial rules derived from the Constitution. In reality, it has become a private industry dominated by a textbook duopoly—the Democrats and the Republicans—and plagued and perverted by unhealthy competition between the players. Tragically, it has therefore become incapable of delivering solutions to America's key economic and social challenges. In fact, there's virtually no connection between our political leaders solving problems and getting reelected. In *The Politics Industry*, business leader and path-breaking political innovator Katherine Gehl and world-renowned business strategist Michael Porter take a radical new approach. They ingeniously apply the tools of business analysis—and Porter's distinctive Five Forces framework—to show how the political system functions just as every other competitive industry does, and how the duopoly has led to the devastating outcomes we see today. Using this competition lens, Gehl and Porter identify the most powerful lever for change—a strategy comprised of a clear set of choices in two key areas: how our elections work and how we make our laws. Their bracing assessment and practical recommendations cut through the endless debate about various proposed fixes, such as term limits and campaign finance reform. The result: true political innovation. *The Politics Industry* is an original and completely nonpartisan guide that will open your eyes to the true dynamics and profound challenges of the American political system and provide real solutions for reshaping the system for the benefit of all. THE INSTITUTE FOR POLITICAL INNOVATION The authors will donate all royalties from the sale of this book to the Institute for Political Innovation.

Editorial Reviews "Fresh, fun, and unbelievably hot, Audrey Carlan's *Calendar Girl* series will have you falling in love over and over again and craving the next installment." -Meredith Wild, #1 NYT Bestselling Author "Sinfully delicious from start to finish! Sexy, smart, and so unique! I was completely immersed in Mia's journey." -Katy Evans, NYT Bestselling Author "A sexy, fast-paced, and downright addictive read. I devoured every word of Mia's journey." -Meghan March, USA Today Bestselling Author "This was a KILLER start to Ms. Carlan's monthly series!" -Give Me Books "Damn, Audrey did it again! Made me smile, made me laugh & made me cry with her beautiful words! I am in love with these books. -Hooks & Books Blog "This story was exciting, quick; but well paced and full of loveable characters. I haven't met a character in this series that I haven't liked yet!" -Nice and Nau Synopsis It's really simple. I needed money. A lot of money. One million dollars to be exact. The amount didn't matter. All that mattered is

that at the end of that price tag held my father's life. No money. No life. The time limit was one year. On January 1st I had to pay up or my Father was going to be killed. When you're faced with an ultimatum like this, you do whatever you have to do. And that's exactly what I did. The job...Exquisite Escorts. My role, serve as high priced arm candy to anyone that can afford the \$100,000 price tag for a month of my company. Sex is optional (for me) and a 20% increase on the price. Mia Saunders just barely escaped a paltry life back home in Las Vegas until she gets the call that her Father has been beaten to within an inch of his life for not paying his gambling debt. Problem is, the lone shark is her lousy, ruthless ex-boyfriend. Another guy in a long line of men she'd fallen head over heels for. Not anymore. Mia's mission is simple. Serve as a high-priced escort for her Aunt's company and pay monthly against her Father's bad debt. A month with a rich man who she doesn't have to sleep with if she doesn't want to? Easy money. At least that's the way it was supposed to go.

Today's crafters are no longer interested in simply cross-stitching samplers or painting floral scrolls on china. Instead, the contemporary craft movement embraces emerging artists, crafters, and designers working in traditional and nontraditional media. Jenny Hart's Sublime Stitching has revolutionized the embroidery industry. Each year Nikki McClure sells thousands of her cut-paper wall calendars. Emily Kircher recycles vintage materials into purses. Stephanie Syjuco manufactures clothing under the tag line "Because Sweatshops Suck." These are just some of the fascinating makers united in the new wave of craft capturing the attention of the nation, the Handmade Nation. Faythe Levine traveled 19,000 miles to document what has emerged as a marriage between historical technique, punk culture, and the D.I.Y. ethos. For Handmade Nation (along with the documentary film of the same name, coming in 2009) she and Cortney Heimerl have selected 24 makers and 5 essayists who work within different media and have different methodologies to provide a microcosm of the crafting community. Participants in this community share ideas and encouragement through websites, blogs, boutiques, galleries, and craft fairs. Together they have forged a new economy and lifestyle based on creativity, determination, and networking. Twenty-four artists from Olympia, Washington, to Providence, Rhode Island, and everywhere in between show their work and discuss their lives. Texts by Andrew Wagner of American Craft Magazine, Garth Johnson of Extremecraft.com, Callie Janoff of the Church of Craft, Betsy Greer of Craftivism.com, and Susan Beal, author of Super Crafty, supply a critical view of the tight-knit community where ethics can overlap with creativity and art with community. Handmade Nation features photographs of the makers, their work environment, their process, their work, and discussions of how they got their start and what motivates them. Handmade Nation is a fascinating book for those who are a part of the emerging movement or just interested in sampling its wares.

In the tradition of Octavia Butler, here is radical self-help, society-help, and planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, Emergent Strategy teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride! adrienne maree brown, co-editor of Octavia 's Brood: Science Fiction from Social Justice Movements, is a social justice facilitator, healer, and doula living in Detroit.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators. Part of the "Coloring Books for the Soul" series, a heavenly adult coloring book packed with original art and evocative wisdom words, featuring mystical, magical imagery that celebrates the celestial realm and the angels who inhabit it—a creative and inspiring invitation to nourish our souls and reconnect with our spirit. From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' *Guardian* 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' *Observer* 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' *The Times*

NATIONAL BEST SELLER A stunning, personal memoir from the astronaut and modern-day hero who spent a record-breaking year aboard the International Space Station—a message of hope for the future that will inspire for generations to come. The veteran of four spaceflights and the American record holder for consecutive days spent in space, Scott Kelly has experienced things very few have. Now, he takes us inside a sphere utterly hostile to human life. He describes navigating the extreme challenge of long-term spaceflight, both life-threatening and mundane: the devastating effects on the body; the isolation from everyone he loves and the comforts of Earth; the catastrophic risks of colliding with space junk; and the still more haunting threat of being unable to help should tragedy strike at home—an agonizing situation Kelly faced when, on a previous mission, his twin brother's wife, American Congresswoman Gabrielle Giffords, was shot while he still had two months in space. Kelly's humanity, compassion, humor, and determination resonate throughout, as he recalls his rough-and-tumble New Jersey childhood and the youthful inspiration that sparked his astounding career, and as he makes clear his belief that Mars will be the next, ultimately challenging, step in spaceflight. In *Endurance*, we see the triumph of the human imagination, the strength of the human will, and the infinite wonder of the galaxy.

A "remarkable memoir" (Nature) of life with an emperor penguin colony, gorgeously illustrated with 32 pages of exclusive photography For 337 days, award-winning wildlife cameraman Lindsay McCrae intimately followed 11,000 emperor penguins amid the singular beauty of Antarctica. This is his masterful chronicle of one penguin colony's astonishing journey of life, death, and rebirth—and of the extraordinary human experience of living amongst them in the planet's harshest environment. A miracle occurs each winter in Antarctica. As temperatures plummet 60° below zero and the sea around the remote southern continent freezes, emperors—the largest of all penguins—begin marching up to 100 miles over solid ice to reach their breeding grounds. They are the only animals to breed in the depths of this, the worst winter on the planet; and in an unusual role reversal, the males incubate the eggs, fasting for over 100 days to ensure they introduce their chicks safely into their new frozen world. My Penguin Year recounts McCrae's remarkable adventure to the end of the Earth. He observed every aspect of a breeding emperor's life, facing the inevitable sacrifices that came with living his childhood dream, and grappling with the personal obstacles that, being over 15,000km away from the comforts of home, almost proved too much. Out of that experience, he has written an unprecedented portrait of Antarctica's most extraordinary residents.

First we were friends. Then we were roommates. Now I want more... What can I say about Chess Copper? The woman is capable of bringing me to my knees. I know this about five minutes after getting naked for her. No one is more surprised than me. The prickly photographer my team hired to shoot our annual charity calendar isn't my usual type. She's defense to my offense, a challenge at every turn. But when I'm with her, all the regrets and darkness goes away. She makes life fun. I want to know Chess, be close to her. Which is a bad idea. Chess is looking for a relationship. I've never given a woman more than one night. But when fate leaves Chess without a home, I step up and offer her mine. We're roommates now. Friends without benefits. But it's getting harder to keep our hands off each other. And the longer we live together the more I realize she's becoming my everything. Trick is... Now that I've made her believe I'm a bad bet, how do I convince her to give this player a true shot at forever?
