

Pet Masterclass Intermediate Annette Capel

A new level for the Exams Result series with an Online Workbook.

This text offers a thorough analysis of how listening, speaking, reading and writing, as well as grammar and vocabulary, are tested in a range of exams, along with appropriate teaching strategies for each. Also includes a guide to all major international English language exams.

Those who are able to read Homer in Greek have ample recourse to commentaries, but the vast majority who read the Iliad in translation have not been so well served—the many available translations contain few, if any, notes. For these readers, Malcolm M. Willcock provides a line-by-line commentary that explains the many factual details, mythological allusions, and Homeric conventions that a student or general reader could not be expected to bring to an initial encounter with the Iliad. The notes, which always relate to particular lines in the text, have as their prime aim the simple, factual explanation of things the inexperienced reader would be unlikely to have at his or her command (What is a hecatomb? Who is Atreus' son?). Second, they enhance an appreciation of the Iliad by illuminating epic style, Homer's methods of composition, the structure of the work, and the characterization of the major heroes. The "Homeric Question," concerning the origin and authorship of the Iliad, is also discussed. Professor Willcock's commentary is based on Richmond Lattimore's translation—regarded by many as the outstanding translation of the present generation—but it may be used profitably with other versions as well. This clearly written commentary, which includes an excellent select bibliography, will make one of the touchstones of Western literature accessible to a wider audience.

A three-level (B1+ to C1) integrated skills course for higher education students at university or on foundation courses. The C1 Advanced Student's Book consolidates academic study skills. Students' analytical skills are challenged with an increased range of authentic written and spoken academic texts. From essay organisation, taking notes, group discussion to writing references and paraphrasing texts, the students are presented with a wealth of practice opportunities to enhance all academic skills at this level. The course further develops independent learning skills and critical thinking through 'Study tips' sections and allows for personalisation of learning in the 'Focus on your subject' sections. Lecture and seminar skills units provide authentic practice in listening to lectures and participating in seminars.
