The definitive study and essential guide to Jamaican Dancehall in the 1980s. Dancehall is at the centre of Jamaican musical and cultural life. From its roots in Kingston in the 1950s to its heyday in the 1980s, Dancehall has conquered the globe also spreading to the USA, UK, Canada, Japan, Europe and beyond. This definitive study and essential guide to Jamaican Dancehall in the 1980s features hundreds of exclusive photographs with accompanying text, interviews and biographies. This book captures a previously unseen era of musical culture fashion and lifestyle. With unprecedented access to the incredibly vibrant music scene during this period, Beth Lesser's photographs are a unique way in to a previously hidden part of Jamaican culture.

When a seaside carnival lures the whole flock away from a herding competition, will Bitzer the sheepdog be forced to turn in his clipboard? Bitzer the sheepdog is looking, well, sheepish. Not only is Top Dog, his sniggering rival, flaunting the latest eHerder device, now Bitzer can't find his flock! Even if a madcap chase with Shaun uncovers their woolly friends amid a frenzy of cotton candy, fortune-teller's booths, acrobat tents, and clown cars, can they all make it back to the sheep-herding contest in time—and figure out how to wow the judges?

Natasha Munro is your typical twenty eight year old girl, well your typical twenty eight year old English loud 'n' proud Geordie; curvy, fun and a whole load of fab-u-lous. Her life is all going to plan - good job, great friends, close family and a loving boyfriend - until an unexpected event stands everything on its head. Nursing a broken heart and decked head-to-toe in tasselled chaps and rhinestones, Natasha and her flamboyant fairy of a gay best friend, Tink, uproot from their North-Eastern nest, throw caution to the wind and embark on a new life together in Canada. Canada - Land of the Rocky Mountains, maple syrup; oh, and an 'in-between movies' Hollywood mega-star. Enter infamous bad-boy of the big screen, Tudor North - Tudor 'bloody' North! Tudor is towering, brooding and gorgeous, and he is harbouring a deep secret. His outward demeanour is cold and intimidating, and with it he successfully keeps everyone at arm's length; that is everyone except a certain Ms. Munro. It soon becomes clear; what with her smart mouth and lusciously ample arse, that Natasha proves more than a match for our emotionally-distant mega-star. Will Natasha settle into her new life in Canada? Will she ever find her fairytale happy ending? Can a movie star and an ordinary girl from England ever really make it work? Or will the secrets lurking in Tudor's past scupper their chance of happiness? Eternally North is addictive, funny and heart-warming; a fast paced comedic journey of self-discovery; unyielding friendship and, of course, it would not be complete without a generous sprinkling of good old-fashioned British 'slap-and-tickle'. WARNING: Contains a foul-mouthed voluptuous Brit; a self-confessed and self-promoted Friggin' Fantastic Fairy; and an abundance of tattoo-smothered muscles nicely wrapped up in one gorgeous bad-boy package.

New York Times bestselling author Patti Callahan Henry delivers an engaging novel about a South Carolina woman who goes back home to face the past—and discovers herself. Meridy Dresden was once a free-spirited, fun-loving girl. All that changed when the boy she loved was killed in a tragic fire. Since then, she alone has carried the burden of a terrible secret. Now, years later, married to a wonderful man and mother of a teenage son, she is shocked to learn that a childhood friend is being blamed for that long-ago fire. Fearful but determined, Meridy returns to the South Carolina Lowcountry and summons the courage to make a decision that may destroy her well-ordered life, her family's reputation, her contented marriage, and everything she's worked so hard to protect...including her heart. "Brilliant. Powerful. Magical. Do not miss this book."—New York Times bestselling author Haywood Smith

Science: A Four Thousand Year History rewrites science's past. Instead of focussing on difficult experiments and abstract theories, Patricia Fara shows how science has always belonged to the practical world of war, politics, and business. Rather than glorifying scientists as idealized heroes, she tells true stories about real people - men (and some women) who needed to earn their living, who made mistakes, and who trampled down their rivals in their quest for success. Fara sweeps through the centuries, from ancient Babylon right up to the latest hi-tech experiments in genetics and particle physics, illuminating the financial interests, imperial ambitions, and publishing enterprises that have made science the powerful global phenomenon that it is today. She also ranges internationally, illustrating the importance of scientific projects based around the world, from China to the Islamic empire, as well as the more familiar tale of science in Europe, from Copernicus to Charles Darwin and beyond. Above all, this four thousand year history challenges scientific supremacy, arguing controversially that science is successful not because it is always right - but because people have said that it is right.

Is nature all there is? John Haught examines this question and in doing so addresses a fundamental issue in the dialogue of science with religion. The belief that nature is all there is and that no overall purpose exists in the universe is known broadly as 'naturalism'. Naturalism, in this context, denies the existence of any realities distinct from the natural world and human culture. Since the rise of science in the modern world has had so much influence on naturalism's intellectual acceptance, the author focuses on 'scientific' naturalism and the way in which its defenders are now attempting to put a distance between contemporary thought and humanity's religious traditions. Haught seeks to provide a reasonable, scientifically informed alternative to naturalism. His approach will provide the basis for lively discussion among students, scholars, scientists, theologians and intellectually curious people in general.

Developers who want to access USB devices from their embedded systems will find a helpful resource in USB Embedded Hosts: The Developer 's Guide. This new book from the author of USB Complete shows how small systems can take advantage of the same wealth of USB devices available to conventional PCs. The book begins with a review of USB host communication protocols. Readers then learn which USB host requirements are relaxed for embedded systems and what new requirements some embedded systems must meet. To help in selecting a development platform, the book explores available hardware and software for USB host communications in small systems. The heart of the book focuses on communicating with USB devices. The topics (with example code) include USB drives, keyboards, virtual serial ports, network bridges, mics, speakers, video cameras, and printers, plus devices that don ' t fit defined USB classes. Also discussed are systems that support both USB host and device functions. The example code is written for the BeagleBoard-xM open development board using a distribution of Linux targeted to small systems. Also covered is how to use Linux commands and utilities to learn about, monitor, and debug communications with USB devices.

Every operator who is responsible for monitoring critical rotating equipment will greatly benefit from this handy reference book. The goal of this book is to present proven techniques that will enable rookie and veteran operators alike to detect problems early and, we hope, eliminate major outages and/or maintenance costs. To achieve this goal we shall explain the basics of lubrication systems, bearings, drivers, seals and sealing systems, for centrifugal and positive displacement pumps as well as turbines, centrifugal compressors and reciprocating

compressors. We will then present common sense inspection methods for centrifugal and positive displacement pumps, gear boxes, motors, heat exchangers, and turbines.
