A team of international scholars assesses the field of modern theology thematically, covering classic topics in Christian theology over the last 200 years.

London's social season is in full swing, and Victorian aristocracy is atwitter over a certain gentleman who claims to be the direct descendant of Louis XVI and Marie Antoinette. Adding to their fascination with all things French, an audacious cat burglar is systematically stealing valuable items that once belonged to the ill-fated queen. But things take a dark turn. The owner of one of the pilfered treasures is found murdered after the theft is reported in the newspapers, and the mysterious thief develops a twisted obsession with Lady Emily Ashton. It takes all of Lady Emily's wit and perseverance to unmask her stalker and ferret out the murderer, while faced with a brewing scandal that threatens both her reputation and her romance with the dashing Colin Hargreaves.

Most macroeconomists agree that we live in the age of microfoundations. The recent worldwide financial crisis may have emboldened critics of this microfoundational orthodoxy, but it remains the dominant view that macroeconomic models must go beyond supply and demand functions to the level of individual decision-making, taking into account the general dynamic environment where agents live. *Microfoundations Reconsidered* seeks to reassess how the relationship of micro and macroeconomics evolved over time. The highly regarded contributors to the book argue that the standard narrative of microfoundations is likely to be unreliable. They therefore re-examine the history of the relationship of microeconomics and macroeconomics, starting from their emergence as self-consciously distinct fields within economics in the early 1930s. They seek to go beyond the conventional history that is often told and written by practicing economists. From different perspectives they challenge the association of microfoundations with Robert Lucas and rational expectations and offer both a more complete and a deeper reading of the relationship between micro and macroeconomics. *Microfoundations Reconsidered* is a valuable addition to the macroeconomic research literature. It is ideally suited to students, scholars, researchers, and practitioners with an interest in macro and microeconomics and the history of economics.

Last year, author Lysa TerKeurst released the book *Made to Crave*, providing the Biblical answer to why people diet, regain the weight lose, and continue to find themselves stuck in this vicious cycle. *Made to Crave* helped thousands of people finally achieve victory in the weight loss journey. But, according to TerKeurst, "We need more than 19 chapters to stay motivated and on track. That's why I wrote daily devotional with 60 inspirational entries. There is plenty of new material not in the original book. Rest assured, I also included your favorite nuggets of wisdom from *Made to Crave*." Just like the *Made to Crave* book, this *Made to Crave Devotional* is not a how-to get book. It is the road to finding the lasting 'want to' that extends far beyond the surface issues of weighing less and wanting to wear a clothes size. Says TerKeurst: "There's a spiritual battle going on. It's real. And it's amazing how perfectly the Bible gives us specific ways to find victory with our food struggles. "Even for girls who don't crave carrots."

Ten agonizing months have gone by since Therese faced off against her parents' murderer at Mount Olympus, and she suspects Thanatos' absence is meant to send her a message: go on with your life. She tries to return Pete's affections, but when Than shows up to take her hamster's soul, she sees him and becomes infuriated when he says he's "been busy." In cahoots with her new friend, Vicki, who's gotten together with the Demon Druggies at school, Therese takes a drug that simulates a near-death experience, planning to tell Than off so she can have closure and move on, but things go very, very wrong. Eventually she learns Than has been busy searching for a way to make her a god, he's found it, but it requires her to complete a set of impossible challenges designed by Hades, who hopes to see her fail.

The Chainsaw Operator's Manual is an essential safety tool for chainsaw operators. It is the ultimate guide to basic chainsaw operating techniques covering safety, maintenance and cross-cutting, but not tree felling. Detailed diagrams illustrate horizontal, vertical and boring cuts, as well as trimming and cross-cutting techniques. Safety considerations are discussed, including workplace safety, occupational hazards, kick-back and identifying dangerous trees. An explanation of the 'tension' and 'compression' forces in timber is also provided to help you understand where to begin cutting to avoid jamming the saw. The book covers chainsaw maintenance in detail, explains all aspects of the equipment and helps you select the right chainsaw and personal protection equipment for your needs. Trouble-shooting charts are included to help you solve operating problems. This manual has been updated to take into account the most recent changes in nationally accredited competency standards. It is a must-have for anyone operating a chainsaw.

Using both verbal and nonverbal techniques to make its messages as persuasive as possible, advertising has become an integral component of modern-day social discourse designed to

influence attitudes and lifestyle behaviors by covertly suggesting how we can best satisfy our innermost urges and aspirations through consumption. This book looks at the categories of this form of discourse from the standpoint of semiotic analysis. It deals with the signifying processes that underlie advertising messages in print, electronic, and digital form.

[Daily Knowledge Valuation in Organizations](#)

One of the major challenges for modern organizations is the management of individual and collective knowledge, which is at the root of specific practices designed to optimize knowledge acquisition, maintenance and application. There are, however, still a disproportionately low number of studies focused on the structure and nature of knowledge. This book tackles the subject of daily knowledge: the knowledge related to everyday tasks. How does this knowledge present itself in the mind? How do we acquire and preserve it? To answer these questions, the authors explore a number of techniques which help to keep track of information produced in collaborative activity and extract knowledge by aggregating these traces.

In Georgia during the summer of 1976, Gabriel, a white boy who is being bullied, and Frita, an African American girl who is facing prejudice, decide to overcome their many fears together as they enter fifth grade.

Cara yearns to ride her beloved Skydancer, a rare Goldenbrow dragon, but her father refuses to permit her to fly and she must be content with mucking out stalls and helping raise young dragons at the famed stud and training farm known as Dragonsdale.

A new love will test the boundaries of passion between a privileged boy next door and the tattooed, blue-haired girl who helps him embrace his wild side... Nate has developed quite a playboy reputation around campus. It's not that he doesn't respect or trust women; he doesn't trust himself. The men in Nate's family are prone to abusive behavior—a dirty secret that Nate's been running from his entire life—so Nate doesn't do relationships. But he can't help himself around one girl... Jessie is strong, independent, and works at a tattoo parlor. Nate can't resist getting close to her, even if it's strictly a friendship. But it doesn't take long for Nate to admit that what he wants with Jessie is more than just friendly. With Jessie, he can be himself and explore what he's always felt was a terrifying darkness inside him. Even when Nate begins to crave her in a way that both shocks and horrifies him, Jessie still wants to know every part of him. Testing their boundaries together will take a trust that could render them inseparable... or tear them apart. INCLUDES A PREVIEW OF TWO OF HEARTS.
