*The world's foremost mentalist demonstrates how to condition mind and body in order to accomplish many of the extraordinary mental feats that Kreskin accomplishes. The Amazing Kreskin is a scientist of the mind, relying on natural and scientific means to perform effects that have baffled millions around the world. Natural laws govern the working of the mind, he says. Those who do not understand the laws usually label mental phenomena as supernatural or extrasensory. In fact, few of us have tapped more than a fraction of our mental potential. In this book, he reveals how readers can use their latent mental abilities to enhance the ordinary senses to accomplish effects that resemble telepathy and clairvoyance. Kreskin insists that there is nothing supernatural about any of these effects, and he redefines ESP as extremely sensitive perception to remove all connotation of the other world from this completely natural ability. Kreskin explains how to heighten awareness, increase powers of concentration, discover unknown strengths, tap the power of the unconscious, employ the power of illusion, utilize the power of suggestion, control attitudes and behavior, use silent communication, and predict with educated guesses. He also offers tips on how to hear whispers in a crowded room; predict news stories weeks in advance; read thoughts in the minds of complete strangers; influence others' attitudes and actions; produce hypnotic effects without hypnosis; become a human lie detector; and locate lost objects. Readers will be amazed and amused by what Kreskin can teach them about their own potential.*

For Gemma Green's first time, things should have been straightforward. Find your subject, hold their gaze and push a thought into their head to save them from future disaster – Aversion complete. A pretty simple process given that the subject was to have no recollection of the experience. But Russ Tanner doesn't seem to want to forget. Gemma knows she has a problem but is she facing the side effects of a failed Aversion or has the school's tennis champ really fallen for her? The James Bond Cold Reading is a whole new take on the twelve lines of the 'Classic Reading' made so popular from the 50's to the present day. Julian 'Bev' Moore shows you how this much discussed but seldom used powerful cold reading technique can be applied effectively and memorised in no time at all using characters such as James Bond that you already know and love. Forget about learning stock lines and never using them - using the proven techniques in The James Bond Cold Reading, you can learn to speak in you own words and amaze people by how much you know about*

*them using one of the most misunderstood tools of mentalism - the character reading. By bringing a modern slant to an old technique, Julian 'Bev' Moore proves once again that that the old ones are the best - if only we knew how to apply them. If you're not a fan of 'stock lines' and think that learning them is a waste of time, this ebook could seriously change your mind! REVIEWS "I got Julian's book and it is wonderful! It is a great system for doing a reading and extremely practical. I applaud Julian and highly recommend this!" - Richard Osterlind "First palmistry, now general Forer-Barnum 101... this guy really amazes me." - Craig Browning "Julian has taken the Classic Reading - which isn't out of date, as some would suggest - and applied a James Bond theme to its LEARNING (not to the reading itself), to make the reading's customization so much easier. It's ingenious, simple, and thought-inspiring, all at the same time! Buy this now, and start using it right away!" - R. Lee Davis "I have tried many times to learn the stock lines of cold reading. I've tried memory techniques, linking, the peg system, and even with all that everything seemed a confusing, repetitive mess. Because of Julian's system, in two days, I have learned to give a cold reading forward, backward, inside out and in my own words. Just as with Julian's palmistry book saved me about five years of study, this book is just as good and also very interesting. If you're interested in cold reading at all this will be the best money you'll ever spend. As a side note his system could be applied to anything else you might want to memorize and make your own. I have never heard of his techniques before and I have studied a lot of memory techniques. It's so easy I will add this to my 'readings' repertoire." - Scott Martisse "So I'm finally watching the new Casino Royale and lines from the James Bond Reading keep popping unbidden into my head. What makes this interesting is I hadn't really intended on learning the reading via James Bond but via a character I know more about. I followed Julian's suggestions to practice readings aloud, even to inanimate objects. After a bit of this, I tried the real deal. This isn't something you can do mechanically, at least if you want to get maximum effect and responses. It is a matter of a give and take that is "entrancing" in its impact. I can't wait to see what more experience will bring. Thank you Julian, you really have made a significant contribution. Your ability to simplify and teach is exceptional. I generally rely on my knowledge as a psychologist to add a bit of reading but it wasn't anywhere as powerful as applying this system. Folks, don't just read JBR. Get out there and use it." - Dr Bill Cushman OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning: Graphology - The Art Of Handwriting Analysis Speed Learning: Cartomancy - A Playing Card Reading Primer Speed Learning: Palmistry - Palm Readings In Your Own Words Speed Learning: Numerology - Numbers Past And Present With The Lo-Shu Square Speed Learning: Star Signs*
