A Manual for Cleaning Women

"I have always had faith that the best writers will rise to the top, like cream, sooner or later, and will become exactly as well-known as they should be—their work talked about, quoted, taught, performed, filmed, set to music, anthologized. Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves." --Lydia Davis
A MANUAL FOR CLEANING WOMEN is the latest work of the legendary and accessible Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators, hitchhikers, and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how they'd ever overlooked her in the first place.

This book is a detailed study of salient examples of Mexican travel writing from the nineteenth and twentieth centuries. While scholars have often explored the close relationship between European or North American travel writing and the discourse of imperialism, little has been written on how postcolonial subjects might relate to the genre. This study first traces tradition based closely on European imperialist models in mid-nineteenth-century Mexico. It then goes on to analyse how the narrative techniques of postmodernism and the political agenda of postcolonialism might combine to help challenge the genre's imperialist tendencies in late twentieth-century works of travel writing, focusing in particular on works by writer Fernando Solana Olivares.

Authentic home cooking of the American Southwest and Northern Mexico.

From David Chang, currently the hottest chef in the culinary world, comes this his first book, written with New York Times food critic Peter Meehan, packed full of ingeniously creative recipes. Already a sensational world star, Chang produces a buzzing fusion of Korean/Asian and Western cuisine, creating a style of food which defies easy categorisation. That it is far from eminently cookable, there is also no doubt! In the words of Chang himself, it is, 'bad pseudo-fusion cuisine!' The vibrant, urban feel of the book is teamed perfectly with clear and insightful writing that is both witty and accessible. Backed by undeniably informed technique and a clearly passionate advocacy of cutting-edge fusion cooking, Chang's Momofuku is a debut.

If you asked people to post a status update on their relationship with food, most would say "It's Complicated." We aspire to eat healthfully but find ourselves making hasty food choices driven by stress and convenience. Or we treat ourselves to a decadent dessert but feel so guilty we can't even enjoy it. The truth is we can't make good food decisions if we don't eat food. In The Food Therapist, Shira Lenchewski offers readers an ongoing one-on-one food therapy session, revealing the root causes of our emotional hang-ups around food and providing the necessary tools to overcome them. This practical and judgment-free guide helps readers hone the skills needed to put their get-healthy intentions into daily action, such as planning their fullness cues, and harnessing willpower (even when life gets messy). Lenchewski also offers easy-to-follow, tasty recipes aimed at rebalancing our hormones and conquering our cravings without deprivation. The Food Therapist is a refreshingly modern resource that helps us finally un-complicate our relationship with food and our bodies. We can then focus our healthy choices, day in and day out, which serve our ultimate goals, whatever they may be.

Taking an integrated-skills approach, Imagenes offers a strong emphasis on developing oral proficiency and cultural awareness and appreciation. The text's reduced scope and sequence combined with ample practice make it well suited for courses with fewer contact hours."

During the final months of his life, Walt Disney was consumed with the world-wide problems of cities. His development concept at the time of his death on December 15th, 1966 would be his team's conceptual response to the ills of the inner cities and the sprawl of the megalopolis: the Experimental Prototype Community of Tomorrow, or, as it became known, EPCOT. This beautifully written, instantly engrossing volume focuses on the original concept of EPCOT, which was conceived by Disney as an experimental community of about 20,000 people on the Disney World property in central Florida. With its radial plan, 50-acre town center enclosed by a dome, themed international shopping area, greenbelt, high-density apartments, satellite communities, monorail and underground roads, the original EPCOT plan is reminiscent of post-war Stockholm and the British New Towns, as well as today's transit-oriented development theory. Unfortunately, Disney himself did not live long enough to witness the realization of his model city. However, EPCOT's evolution into projects such as the EPCOT Center and the town of Celebration displays a remarkable commitment by the Disney organization to the original EPCOT philosophy, one which continues to have relevance in the fields of planning and development.
