The main objective of À votre tour! is to advance students to a level at which they can comfortably express themselves on a variety of French and francophone topics. Avoiding the excessive rigor of most intermediate texts, À votre tour! immerses students in authentic language and cultural contexts to achieve three key objectives: to build and reinforce oral and written communicative skills, to develop reading skills and cultural awareness, and to forge a strong linguistic base. New! Tête à tête communicative activities require one student to use communicative skills to elicit unknown details from another student in order to complete a task, with basic vocabulary and grammar structures recycled to reinforce previously learned material. New! Integrated video correlates to the Français Pratique section of each unit and to corresponding video activities provided in the Student Activities Manual. New! Updated cultural material highlights recent cultural trends, such as prices expressed in euros, French phone numbers with appropriate area codes; reflects the current political realities; and offers many entry points for further development of cultural awareness, grammar, and lexical points. A broad introduction to French and Francophone cultures provides authentic language and cultural contexts without an intense grammar curriculum—adapted for students who might take French as a minor, rather than a major. Accessible presentation enables students with basic conversational and grammar skills to achieve success through careful pacing, cyclical review and re-entry of structures and vocabulary, and engaging conversational material. Solid grammar review builds a framework by first covering basic structures and expressions, then adding more advanced concepts to expand students' linguistic abilities.

Follows Nicholas as he runs away, buys his mother a birthday gift, and worries about showing his parents his report card.

Ralph Sprockett is the story of a man who knows everything there is to know about bicycles, except how to ride one. An expert bicycle mechanic, thanks to constantly crashing and subsequently having to repair bikes as a child, he is admired by everyone in town for his skill and knowledge, so much so that they have even started referring to bicycles as 'sprockets' in his honour. No one knows his deep, dark secret - not even his wife knows that the great Ralph Sprockett cannot ride a bike. When his friend Noel,

who is a photographer, announces that he would like to take a picture of Ralph riding his bike down a local hill, Ralph finally has to confront his fears, with unexpectedly dramatic results. Originally published in France in 1995, Ralph Sprockett is the perfect companion to Monsieur Lambert, Sempe's earlier graphic novel.

Cultural Encounters in Translated Children's Literature offers a detailed and innovative model of analysis for examining the complexities of translating children's literature and sheds light on the interpretive choices at work in moving texts from one culture to another. The core of the study addresses the issue of how images of a nation, locale or country are constructed in translated children's literature, with the translation of Australian children's fiction into French serving as a case study. Issues examined include the selection of books for translation, the relationship between children's books and the national and international publishing industry, the packaging of translations and the importance of titles, blurbs and covers, the linguistic and stylistic features specific to translating for children, intertextual references, the function of the translation in the target culture, didactic and pedagogical aims, euphemistic language and explicitation, and literariness in translated texts. The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback, the antipodes, the exotic, the wild, the unknown, the void, the end of the world, the young and innocent nation, and the Far West. Contemporary signifiers that construct Australia as urban, multicultural, Aboriginal, worldly and inharmonious are seriously under-represented. The study also shows that French translations are conventional, conservative and didactic, showing preference for an exotic rather than local specificity, with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism. The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu, especially through translated children's literature.

Peter S í s's remarkable biography *The Pilot and the Little Prince* celebrates the author of *The Little Prince*, one of the most beloved books in the world. Antoine de Saint-Exup é ry was born in France in 1900, when airplanes were just being invented. Antoine dreamed of flying and grew up to be a pilot—and that was when his adventures began. He found a job delivering mail by plane, which had never been done before. He and his fellow pilots traveled to faraway places and discovered new ways of getting from one place to the next. Antoine flew over mountains and deserts. He battled winds and storms. He tried to break aviation records, and sometimes he even crashed. From his plane, Antoine looked down on the earth and was inspired to write about his life and his pilot-hero friends in memoirs and in fiction. In France and Germany practically every child of seven and upwards knows the adventures of Nicholas. Written by the author of Asterix, Ren é Goscinny, and with illustrations by New Yorkerillustrator, Jean-Jacques Semp é , the five Nicholasbooks tell of the endearing exploits of the young French school boy and his chums. Available in twenty six languages and established as a literary cult figure, the sublimely innocent Nicholas has seduced millions of

readers all over the world. Considered a classic and regularly used by primary and junior school teachers, these stories have the ability to delight both children and adults. Nicholas is the first of five titles to become available to English speaking children all over the world. In some way similar to the cheekiness of Calvin and Hobbes and the innocence and naivety of characters created by the Italian film maker Roberto Benigni, Goscinny and Sempé have created a world of confusion that makes you chuckle out loud. Written between 1959 and 1965 these classic books are continually reprinted around the globe and offer, not only an entertaining read, but a vivid description of French life and culture.

From plays to poetry, Le Petit Nicolas to the Association for Language Learning (ALL) Literature wiki, this book shows trainee teachers of MFL, teachers in schools, teacher educators, how literature can be an essential tool for developing students' cultural awareness as well as language skills. With contributions from Ruth Heilbronn, Jane Jones and other leading scholars, it covers a wide range of approaches including looking at how to support students to develop the skills they need to read and discuss texts, and how to use stories as a pedagogic tool, rather than just a way to develop reading skills. Examples of teaching French, German, Japanese, Mandarin and Spanish are used throughout, but the book draws together resources and strategies for use in teaching all modern foreign languages. Supporting students to develop into creative, reflective teachers, this book offers support for readers to develop their own tasks for their pupils and questions throughout to keep them engaged and encouraging them to critically engage with the content. Seemingly daunting articles are made much more approachable for readers with windows on research which provide a summary of relevant research papers, with full reference details for follow up.

This book brings together an international group of scholars who chart and analyze the ways in which comic book history and new forms of graphic narrative have negotiated the aesthetic, social, political, economic, and cultural interactions that reach across national borders in an increasingly interconnected and globalizing world. Exploring the tendencies of graphic narratives - from popular comic book serials and graphic novels to manga - to cross national and cultural boundaries, Transnational Perspectives on Graphic Narratives addresses a previously marginalized area in comics studies. By placing graphic narratives in the global flow of cultural production and reception, the book investigates controversial representations of transnational politics, examines transnational adaptations of superhero characters, and maps many of the translations and transformations that have come to shape contemporary comics culture on a global scale.

Another classic title from world-renowned cartoonist Jean-Jacques Sempé, this illustrated children's book tells the tale of Martin Pebble, a little boy who blushes a lot and is happiest in the summer, when everyone else has a red face too. It's the beginning of a life-long friendship. This timeless, touching and very funny story is told through images, speech bubbles and short linking texts. Featuring the inimitable drawings and perfectly-judged words of Jean-Jacques Sempé, book will appeal to readers and Sempé connoisseurs of all ages.

Debord's audacious autobiography, here beautifully illustrated.

Literary and multimodal texts for children and young people play an important role in their acquisition of language and literacy, and they are a flourishing part of publishing and translating activities today. This book brings together twentyone papers on the particular aspect of the translation of feigned orality. As the link between the literary and the multimodal text, fictional dialogue is the appropriate place for evoking orality, lending authenticity and credibility to the narrated plot and giving a voice to fictitious characters. This is illustrated with examples from narrative and dramatic texts as well as films, cartoons and television series, in their respective modes of mediation: translating, interpreting, dubbing and subtitling. The findings are of interest from the scholarly point of view of contrastive linguistics, for the professional practice of translating, interpreting, dubbing and subtitling and in the educational context. *Since publication over twenty years ago, *The Translator's Invisibility* has provoked debate and controversy within the field of translation and become a classic text. Providing a fascinating account of the history of translation from the seventeenth century to the present day, Venuti shows how fluency prevailed over other translation strategies to shape the canon of foreign literatures in English and investigates the cultural consequences of the receptor values which were simultaneously inscribed and masked in foreign texts during this period. Reissued with a new introduction, in which the author provides a clear, detailed account of key concepts and arguments in order to issue a counterblast against simplistic interpretations, *The Translator's Invisibility* takes its well-deserved place as part of the Routledge Translation Classics series. This book is essential reading for students of translation studies at all levels.*

*Jean-Nicolas-Louis Durand (1760-1834) regarded the *Précis of the Lectures on Architecture* (1802-5) and its companion volume, the *Graphic Portion* (1821), as both a basic course for future civil engineers and a treatise. Focusing the practice of architecture on utilitarian and economic values, he assailed the rationale behind classical architectural training: beauty, proportionality, and symbolism. His formal systematization of plans, elevations, and sections transformed architectural design into a selective modular typology in which symmetry and simple geometrical forms prevailed. His emphasis on pragmatic values, to the exclusion of metaphysical concerns, represented architecture as a closed system that subjected its own formal language to logical processes. Now published in English for the first time, the *Précis* and the *Graphic Portion* are classics of architectural education.*

The fifth book in the series about the much-loved cheeky French schoolboy and his friends. In this new collection of adventures, things are never easy for Nicholas and his gang: the shopkeeper won't let them buy chocolate, their teacher won't let them play Geoffrey's fantastic new game and Jeremy is none to pleased about the appearance of his new little brother. This international classic in children's fiction by Jean-Jacques Sempé (b.1932) and René Goscinny (1926 - 77) is now available to English-speaking children worldwide in a delightful translation by Anthea Bell. It features 16 stories written by one of the most successful children's authors of all time, with illustrations by one of today's best-loved illustrators. Aimed at readers

from 7 upwards, these stories will be enjoyed by adults and children alike.

'Late into the night we talked of love, of its complications. In my father's eyes they were imaginary . . . This conception of rapid, violent and passing love affairs appealed to my imagination. And none are more beautiful than C é cile, a precocious seventeen-year-old, and her father Raymond, a vivacious libertine. But then, one long, hot summer Raymond decides to marry, and C é cile and her lover Cyril feel compelled to take a hand in his amours, with tragic consequences. Bonjour Tristesse scandalized 1950s France with its portrayal of teenager terrible C é cile, a heroine who rejects conventional notions of love, marriage and responsibility to choose her own sexual freedom. 'The novel that paved the way for the permissive society . . . one of the literary sensations of the century' Daily Telegraph

Gabriel, life in his comfortable expatriate neighborhood of Bujumbura with his French father, Rwandan mother and little sister Ana, is something close to paradise. These are carefree days of laughter and adventure - sneaking Supermatch cigarettes and gorging on stolen mangoes - as he and his mischievous gang of friends transform their tiny cul-de-sac into their kingdom. But dark clouds are gathering over this small country, and soon their peaceful existence will shatter when Burundi, and neighboring Rwanda, are brutally hit by civil war and genocide. A novel of extraordinary power and beauty, *Small Country* describes an end of innocence as seen through the eyes of a child caught in the maelstrom of history. Shot through with shadows and light, tragedy and humor, it is a stirring tribute not only to a dark chapter in Africa's past, but also to the bright days that preceded it.

A lone pilot stranded in the desert is awoken by a little prince, and they become friends. The prince comes from a tiny nameless planet far away. All that exists on his planet are three volcanoes and a flower. Yet, when the flower became difficult to please, like and understand, the little prince left in search of new friends and places.

Monsieur Lambert is a gentle, and unmistakably French, graphic novel with text and pictures by one of the world's best-loved illustrators. Jean-Jacques Sempe offers a glimpse of the everyday lives and secret passions of the regulars in a small Parisian bistro. When Monsieur Lambert does not turn up for lunch at his usual time, the other regulars speculate that he must have met a woman. How else can they explain his strange new behaviour? The diners start discussing women they have loved and lost and, in doing so, they reveal unexpected facets of their own lives and personalities. The restaurant and its regulars are brought to life vividly in a series of drawings which, together with handwritten dialogue and a laconic commentary, display Sempe's signature unerring eye and ear for the telling details of human behaviour. The text was translated from French by award-winning translator Anthea Bell.

W. G. Sebald completed this extraordinary, important and controversial book before his untimely death in December 2001. It is a harrowing study of the devastation of German cities by Allied bombardment in World War II, and an examination of the silence in German literature and culture about this unprecedented trauma. On the Natural History of Destruction is an essential and deeply relevant study of war and society, suffering and amnesia. Like Sebald's novels, it is studded with meticulous observation, moments of black humour, and throughout, the author's unmatched intelligence and humanity.
