Jung's primary concern in Flying Saucers is not with the reality or unreality of UFOs but with their psychic aspect. Rather than

speculate about their possible nature and extraterrestrial origin as alleged spacecraft, he asks what it may signify that these phenomena, whether real or imagined, are seen in such numbers just at a time when

The true nature of our minds is
enlightened and peaceful, as the

and emotionally cling to our wants*

and worries with all our energy, we lose our own enlightened freedom and healing power, only to gain stress and exhaustion, suffering and overexcitement, like the turbulent waves rolling on the surface of the ocean. Our minds

possess the power to heal pain and stress, and to blossom into peace and joy, by loosening the clinging attitudes that Buddhists call "grasping at self." If we apply the mind's healing power, we can heal not only our mental and emotional

afflictions, but physical problems also. This book is an invitation to awaken the healing power of mind through inspiring images and sounds, mindful movements, positive perceptions, soothing feelings, trusting confidence, and

the realization of openness. The healing principle on which these exercises are based is the universal nature and omnipresent power envisioned in Mahayana Buddhism. Yet for healing, we don't have to be believers in any

particular faith. We can heal body and mind simply by being what we truly are, and by allowing our own natural healing qualities to manifest: a peaceful and open mind, a loving and positive attitude, and warm, joyful energy in a state
