Public health officials and organizations around the world remain on high alert because of increasing concerns about the prospect of an influenza pandemic, which many experts believe to be inevitable. Moreover, recent problems with the availability and strain-specificity of vaccine for annual flu epidemics in some countries and the rise of pandemic strains of avian flu in disparate geographic regions have alarmed experts about the world's ability to prevent or contain a human pandemic. The workshop summary, The Threat of Pandemic Influenza: Are We Ready? addresses these urgent concerns. The report describes what steps the United States and other countries have taken thus far to prepare for the next outbreak of "killer flu." It also looks at gaps in readiness, including hospitals' inability to absorb a surge of patients and many nations' incapacity to monitor and detect flu outbreaks. The report points to the need for international agreements to share flu vaccine and antiviral stockpiles to ensure that the 88 percent of nations that cannot manufacture or stockpile these products have access to them. It chronicles the toll of the H5N1 strain of avian flu currently circulating among poultry in many parts of Asia, which now accounts for the culling of millions of birds and the death of at least 50 persons. And it compares the costs of preparations with the costs of illness and death that could arise during an outbreak.

World Link is National Geographic Learning's best-selling core series for young adult/adult learners of English from the false beginner to high intermediate level. The second edition has been completely updated and enhanced to reflect modern teaching methods and user feedback. Combining dynamic vocabulary with essential grammar and universal topics, World Link, Second Edition, helps learners to communicate confidently and fluently.

Technical English Level 1 covers the core language and skills that students need to communicate successfully in all technical and industrial specifications.

For ease of use and practicality Straightforward Second Edition is structured to provide one lesson per double-page spread (A/B/C/D), lasting around 90 minutes. All lessons are interlinked to promote better and more memorable learning, but there is the flexibility to pick out certain key sections to focus on certain language points.

This new component offers a business related alternative to the existing eWorkbook to the award-winning adult course Global. This takes the innovative eWorkbook and provides business-related content to either act as a supplement to the Global Coursebook or as a stand-alone self-study business English course.

Providing a flexible course for both adults and young adults, this work presents a communicative syllabus that helps students to express themselves in English. The teacher's book contains teaching tips, systematic teaching notes, photocopiable unit and module tests, 24 extra photocopiable discussion lessons and more.

Destination C1 & C2 : Grammar and Vocabulary is the ideal grammar and vocabulary practice book for all advanced students preparing to take any C1 & C2 level exam: e.g. Cambridge CAE and Cambridge CPE.

With this wise, tender, and deeply funny novel, Marina Lewycka takes her place alongside Zadie Smith and Monica Ali as a writer who can capture the unchanging verities of family. When an elderly and newly widowed Ukrainian immigrant announces his intention to remarry, his daughters must set aside their longtime feud to thwart him. For their father's intended is a voluptuous old-country gold digger with a proclivity for green satin underwear and an appetite for the good life of the West. As the hostilities mount and family secrets spill out, A Short History of Tractors in Ukrainian combines sex, bitchiness, wit, and genuine warmth in its celebration of the pleasure of growing old disgracefully.

With English becoming the world's foremost lingua franca, the pressure to improve English language education (ELE) has been steadily increasing. Consequently, the nature of ELE has changed drastically in the last decade. This has not only brought about a number of changes in the way English is taught and learnt, but it has also led to various innovative practices around the world. As a result, this edited book aims to shed light on the new theoretical and methodological developments in the field of ELE as well as the major issues and difficulties faced by practitioners in different parts of the globe. One very important variable that the book takes into account is the role that English already plays in a particular society since this may affect the views that teachers and students hold of the language. This in turn can significantly influence the way English is taught and learnt in given political, economic and socio-cultural settings. The purpose of this book is therefore to provide a comprehensive overview of the pedagogical methods, policies and problems that underlie English language education in ten different regions across the world, including: the USA, Canada, the UK, Australia, New Zealand, India, Singapore, Japan, China and Hong Kong. In doing so, the different chapters in the book emphasize the importance of responding to linguistic and other forms of diversity in order to develop English language education in a globalized world. This book will be useful for teachers and students of English language, for English language curriculum and materials developers, and for those involved in educational policy-making and language acquisition research. Written by experts in the field, the range of content covered in the book's chapters will also help policy-makers, researchers and practitioners develop effective English language education practices and policies, and propose solutions to emerging issues in English language teaching and learning in different environments around the world. The newly-developed arguments and concerns pertaining to English language education will serve as future reference for professionals interested in this area of expertise.
