*This book provides process costing; activity-based costing; cost-volume-profit; inventory; balanced scorecard; overhead application and analysis; budgeting; financial statement analysis; decentralization and segment reporting.*

*The world is currently in crisis, a financial crisis of 2008 up to 2012. The phenomena of financial crisis is not new, as the world experienced it on 1930's Great Depression, not to mention in the late 1980s and the famous 1996-2000 Asian financial crisis that held Indonesia and most countries in Asia in monetary crisis. Is there a way for countries to turn this?*

*International Monetary Fund (IMF) came as a solution to cure those countries in need of fund that includes Indonesia. Indonesia is not cured. However, in 2012 Indonesia declared their pledge to IMF of 1 Billion dollar in terms of bonds and even the Indonesian president by UN Secretary-General is appointed as High-level Panel advisor of Millennium Development Goals beyond 2015. What is the relevancy of Indonesia pledge to IMF of 1 Billion dollar in the midst of world financial crisis? This paper looks at the world financial crisis from Indonesian perspective.*

*Citing the long-term consequences of unchecked, substandard worker performance, a guide for managers shares strategies on how to address minor mistakes and ineffective work habits at their earliest stages while building fairer, interdependent employment teams. 35,000 first printing.*

This book examines the relationship between digital innovations on the one hand, and accounting and management information systems on the other. In particular it addresses topics including cloud computing, data mining, XBRL, and digital platforms. It presents an analysis of how new technologies can reshape accounting and management information systems, enhancing their information potentialities and their ability to support decision-making processes, as well as several studies that reveal how managerial information needs can affect and reshape the adoption of digital technologies.

Focusing on the four major aspects data management, information system architecture, external and internal reporting, the book offers a valuable resource for CIOs, CFOs and more generally for business managers, as well as for researchers and scholars. It is mainly based on a selection of the best papers - original double blind reviewed contributions - presented at the 2015 Annual Conference of the Italian Chapter of the Association for Information Systems (AIS).
