

Pakistan Studies M A Part I

This book provides a first systematic and comprehensive account of English in East and South Asia (EESA) based on current research by scholars in the field. It has several unique features. Firstly, it provides a rigorous theoretical overview that is necessary for the understanding of EESA in relation to the burgeoning works on World Englishes as a discipline. Secondly, in the section on linguistic features, a systematic template was made available to the contributors so that linguistic coverage of the variety/varieties is similar. Thirdly, the vibrancy of the sociolinguistic and pragmatic realities that govern actual English in use in a wide variety of domains such as social media, the Internet and popular culture/music are discussed. Finally, this volume includes an extensive bibliography of works on EESA, thus providing a useful and valuable resource for language researchers, linguists, classroom educators, policymakers and anyone interested in the topic of EESA or World Englishes. This volume hopes to advance understanding of the spread and development of the different sub-varieties reflecting both the political developments and cultural norms in the region.

Pakistan Studies is a compulsory subject for all B.A/B.Sc. and B.Com. students. This essential core textbook is comprehensive and covers the syllabi prescribed by the major public sector universities. The book provides a complete overview of the historical background and political development of Pakistan, the break-up of 1971 and the nuclearization of Pakistan. The Foreign Relations section deals with the role of world powers during the wars fought by Pakistan and Pakistan's relations with the South Asian and Middle Eastern countries. The economy and culture of Pakistan are also covered in great detail. This is the first definitive study of Pakistan in all its major aspects.

Pakistan, which since 9/11 has come to be seen as one of the world's most dangerous places and has been referred to as "the epicenter of international terrorism," faces an acute counterterrorism (CT) challenge. The book focuses on violence being perpetrated against the Pakistani state by Islamist groups and how Pakistan can address these challenges, concentrating not only on military aspects but on the often-ignored political, legal, law enforcement, financial, and technological facets of the challenge. Edited by Moeed Yusuf of the US Institute of Peace, and featuring the contributions and insights of Pakistani policy practitioners and scholars as well as international specialists with deep expertise in the region, the volume explores the current debate surrounding Pakistan's ability "and incentives" to crack down on Islamist terrorism and provides an in-depth examination of the multiple facets of this existential threat confronting the Pakistani state and people. The book pays special attention to the non-traditional functions of force that are central to Pakistan's ability to subdue militancy but which have not received the deserved attention from the Pakistani state nor from western experts. In particular, this path-breaking volume, the first to explore these various facets holistically, focuses on the weakness of political institutions, the role of policing, criminal justice systems, choking financing for militancy, and regulating the use of media and technology by militants. Military force alone, also examined in this volume, will not solve Pakistan's Islamist challenge. With original insights and attention to detail, the authors provide a roadmap for Western and Pakistani policymakers alike to address the weaknesses in Pakistan's CT strategy.

This Book Has Three Themes: Language, Education And Culture And The Way They Relate To Each Other And To The Central Issue Of The Distribution Of Power In Pakistan Is The Major Focus Of The Book.

Images of religious extremism and violence in Pakistan—and the narratives that interpret them—inform global events but also twist back to shape local class politics. Ammara Maqsood focuses on life in Lahore, where she untangles these narratives to show how central they are for understanding competition between middle-class groups.

The pages of this book illustrate that as instruments of socialization and sites of ideological discourse textbooks are powerful artefacts in introducing young people to a specific historical, cultural and socioeconomic order. Crucially, exploring the social construction of school textbooks and the messages they impart provides an important context from within which to critically investigate the dynamics underlying the cultural politics of education and the social movements that form it and which are formed by it. The school curriculum is essentially the knowledge system of a society incorporating its values and its dominant ideology. The curriculum is not [our knowledge] born of a broad hegemonic consensus, rather it is a battleground in which cultural authority and the right to define what is labelled legitimate knowledge is fought over. As each chapter in this book illustrates curriculum as theory and practice has never been, and can never be, divorced from the ethical, economic, political, and cultural conflicts of society which impact so deeply upon it. We cannot escape the clear implication that questions about what knowledge is of most worth and about how it should be organized and taught are problematic, contentious and very serious.

Religion, violence, and ethnicity are all intertwined in the history of Pakistan. The entrenchment of landed interests, operationalized through violence, ethnic identity, and power through successive regimes has created a system of [authoritarian clientalism.] This book offers comparative, historicist, and multidisciplinary views on the role of identity politics in the development of Pakistan. Bringing together perspectives on the dynamics of state-building, the book provides insights into contemporary processes of national contestation which are crucially affected by their treatment in the world media, and by the reactions they elicit within an increasingly globalised polity. It investigates the resilience of landed elites to political and social change, and, in the years after partition, looks at the impact on land holdings of population transfer. It goes on to discuss religious identities and their role in both the construction of national identity and in the development of sectarianism. The book highlights how ethnicity and identity politics are an enduring marker in Pakistani politics, and why they are increasingly powerful and influential. An insightful collection on a range of perspectives on the dynamics of identity politics and the nation-state, this book on Pakistan will be a useful contribution to South Asian Politics, South Asian History, and Islamic Studies.

The Routledge Companion to Pakistani Anglophone Writing forms a theoretical, comprehensive, and critically astute overview of the history and future of Pakistani literature in English. Dealing with key issues for global society today, from terrorism, religious extremism, fundamentalism, corruption, and intolerance, to matters of love, hate, loss, belongingness, and identity conflicts, this Companion brings together over thirty essays by leading and emerging scholars, and presents: the transformations and continuities in Pakistani anglophone writing since its inauguration in 1947 to today; contestations and controversies that have not only informed creative writing but also subverted certain stereotypes in favour of a dynamic representation of Pakistani Muslim experiences; a case for a Pakistani canon through a critical perspective on how different writers and their works have, at different times, both consciously and unconsciously, helped to realise and extend a uniquely Pakistani idiom. Providing a comprehensive yet manageable introduction to cross-cultural relations and to historical, regional, local, and global contexts that are essential to reading Pakistani anglophone literature, The Routledge Companion to Pakistani Anglophone Writing is key reading for researchers and academics in Pakistani anglophone literature, history, and culture. It is also relevant to other disciplines such as terror studies, post-9/11 literature, gender studies, postcolonial studies, feminist studies, human rights, diaspora studies, space and mobility studies, religion, and contemporary South Asian literatures and cultures.

Understanding Pakistan: Emerging Voices from India is the outcome of a national seminar for research scholars on Pakistan organized by the Centre for Pakistan Studies at the MMAJ Academy of International Studies, Jamia Millia Islamia, New Delhi. The aim of the seminar was to explore how young minds in India view Pakistan, the quintessential 'enemy' country or the 'other' of India. The range of topics included issues related to Pakistan's politics, economy, popular culture, education, environment, sectarian divide, minorities, policy towards Jammu & Kashmir and foreign relations. The established academic discourse on Pakistan in India is largely dominated by concerns linked to security threats emanating from within Pakistan. Due to this overemphasis on security-related issues, Indian scholarship on Pakistan is considered to be highly subjective and partisan. However, in this volume, most of the young scholars distance themselves from the main thrust of Indian scholarship on Pakistan and provide a fresh perspective on Pakistan which can potentially rupture the established tradition of Indian scholarship on Pakistan. Hopefully, it will be these scholars who in the near future will be at the forefront of emerging scholarship on Pakistan in India.

Focusing on the problems associated with Pakistan's political development, this book identifies and evaluates the factors that have determined the effectiveness of the country's political institutions. Professor Hayes examines the relationship of Islamic values to political organization and public policy and discusses the basic features of the coun

The Importance Of This Book Lies In Its Attempt To Explore Common Understandings Of The Social Agenda Which Lies Behind The Transmission Of Knowledge In Widely Differing Contexts.

Contributors to this volume tackle the question of how to define the contours of current religious fundamentalism, examining the private & public postures of fundamentalist rhetoric, the importance of its regional variants, & the damage it can do to regional & national education systems.

A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl, Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. But she has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable story of courage, hope, and the power of one girl's voice. I AM MALALA is the remarkable story of terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in a new world.

Contemporary Islam provides a counterweight to the prevailing opinions of Islamic thought as conservative and static with a preference for violence over dialogue. It gathers together a collection of eminent scholars from around the world who tackle issues such as intellectual participation, human rights, non-violence and religious harmony. This is a highly topical and important study which gives a progressive outlook for Islam's role in modern politics and society.

Every generation needs to reinterpret its great men of the past. Akbar Ahmed, by revealing Jinnah's human face alongside his heroic achievement, both makes this statesman accessible to the current age and renders his greatness even clearer than before. Four men shaped the nation: Jinnah, the founder of Pakistan, has mostly either been ignored or, in the case of Richard Attenborough's hugely successful film about Gandhi, portrayed as a cold megalomaniac, bent on the conquest of India. Ahmed's major study redresses the balance. Drawing on history, semiotics and cultural anthropology as well as more conventional biographical techniques, Akbar S. Ahmad presents a rounded picture of the man and shows his relevance as contemporary Islam debates alternative paths to a modern Islamic state (at least in the Western media) by figures like Colonel Gaddafi and Saddam Hussein.
