Memoirs of Montparnasse is a delicious book about being young, restless, reckless, and without cares. It is also the best and liveliest of the many chronicles of 1920s Paris and the exploits of the lost generation. In 1928, nineteen-year-old John Glasco escaped Montreal and his overbearing father for the wilder shores of Montparnasse. He remained there until his money ran out and his health collapsed, and he enjoyed every minute of his stay. Remarkable for their candor and humor, Glasco `s memoirs have the deft logic of a wild but utterly absorbing adventure, a tale of desire set free that is only faintly shadowed by sadness at the inevitable passage of time.

A two-volume, slipcased set that includes one hundred duotone photographs and essays on the wild Gita National Forest and Wilderness in southwestern New Mexico.

Your relationship with your pet is special It s a bond that is very different than those that human beings share with each other. When a beloved pet passes away, people often resort to incorrect mechanisms to deal with the grief, such as trying to move too quickly past the loss (dismissing the real impact), or even attempting to replace the pet immediately. However, these are merely two myths out of six that the authors discuss and dismantle in The Grief Recovery Handbook for Pet Loss. Based on the authors Grief Recovery Method(r), this book addresses the differences in losing a pet, and ultimately, moving on with life.

This book tells the remarkable story of the decline and revival of the Russian Orthodox Church in the first half of the twentieth century and the astonishing U-turn in the attitude of the Soviet Union `s leaders towards the church. In the years after 1917 the Bolsheviks ` anti-religious policies, the loss of the former western territories of the Russian Empire, and the Soviet Union `s isolation from the rest of the world and the consequent separation of Russian emigrés from the church were disastrous for the church, which declined very significantly in the 1920s and 1930s. However, when Poland was partitioned in 1939 between Nazi Germany and the Soviet Union, Stalin allowed the Patriarch of Moscow, Sergei, jurisdiction over orthodox congregations in the conquered territories and went on, later, to encourage the church to promote patriotic activities as part of the resistance to the Nazi invasion. He agreed a Concordat with the church in 1943, and continued to encourage the church, especially its claims to jurisdiction over émigré Russian orthodox churches, in the immediate postwar period. Based on extensive original research, the book puts forward a great deal of new information and overturns established thinking on many key points.

Scores of pastors and leaders testify: "THIS CHANGED MY LIFE AND MINISTRY." The author considers these critical questions: In the beginning, before God created Adam (mankind), what was His original purpose and plan for him? What could have happened in the Garden of Eden if Adam had not sinned and God's redemptive plan had not become necessary? We know that when God created Adam he received natural life, but how did God plan for Adam to receive Divine (uncreated life)? What is the difference between God's creating and begetting work? It is evident that God has given the Cross a central place in His redemptive working; what is the difference between the work of the Cross and the way of the Cross? Since God, in the fullness of time, will put on display His Divine masterpiece before all the universe, how can we fully cooperate with him if we do not understand His Ultimate Intention?

The Man with the Easel of Horn is an historical novel infused with the fine arts, based on the life and works of neglected master Emile Friant. Well known as a realist painter formed by the Cabanel atelier in Paris at the end of the 19th Century, Friant was a master draughtsman and painter whose works are an extraordinary example of realism in art with academic formation at its core. From his birth in Alsace-Lorraine, The Man with the Easel of Horn follows in the footsteps of the Franco-Prusian War and then, later on, through WWI. We are introduced to the Grand Salon de Paris and meet famous artists such as John Singer Sargent. The novel also reveals the passion and obsession of Emile Friant dealing with love and the question of sensuousness. It's a faithful reflection of life under la Belle Epoque. Very little has been written about Emile Friant and his works, so this novel breaks new ground in the field of fine arts. Professor Emeritus at the University of New England in Maine, Norman Beaupre writes both in French and English. He has done extensive traveling to do research on the subjects for his creative works. His last novel in English deals with Van Gogh in Arles. The author was decorated by the French Government with the insignias of the Ordre des Arts et Lettres with the rank of Officer for his contributions to the French culture.

"Historians may have locked the box on the JFK assassination and the life of Lyndon Baines Johnson but in reading James Norvell's riveting "out of the box" tale, you will shiver with nagging thoughts of intrigue and doubt. Norvell's semi-fictionitous story, bolstered with historical facts, is a spellbinding masterpiece. He has interacted with principal characters - particularly Madeleine Brown and Billie Sol Estes - and done so in a personal manner and over an extended period of time. The more you read, the more you'll wonder, "Could this have happened?" Be careful - once you pick it up you won't put it down. Dynamite!" John H. (Jack) Grubbs, Ph.D. Brigadier General (Ret.), U. S. Army, author of Dryline and Bad Intentions. "Jim Norvell's unique approach to explaining the assassination of President Kennedy leads the reader into this complex and often difficult subject from a fresh direction. I recommend this book primarily because it exposes even the experienced student of the subject to information with which he may not have been familiar, and to possible associations between 'competing theories' about what happened in Dallas, that may indicate many of them are not necessarily mutually exclusive after all. Mr. Norvell does not pull any punches, and does not sugar-coat the assassination story in any way. An engaging read." Douglas P. Horne, formerly Chief Analyst for Military Records, Assassination Records Review Board, B.A. in History, Ohio State University, and author of Inside the Assassination Records Review Board, Vol. I-V. "My classmate from the Naval Academy, Jim Norvell, has put together a very shocking scenario that leads to a very different assassination event than the "lone gunman, lone event, Oswald-did-it" type answer. Instead he constructs a list of timed events with key power brokers in 1963 that provides a hard-core conspiratorial assassination plot. . . And if you are not entirely convinced these diverse power brokers can mesh and team to make the killing of a President possible, then go very slowly through the chapters that lay down the assassination time lines. . .Point by point, bullet by bullet, the historical novel unfolds. . .But I assure you that it will not end with a lone event, a lone gunman. Two additional assassinations follow with the shootings of Martin Luther King, Jr. and Robert F. Kennedy. Norvell drives you back in time to the 60's to piece together for you an entirely different assassination than the one focused on Oswald and defended as such by the Warren Commission. This is a very good read for all and especially for those who to all and especially for those who to this day can remember where we were on November 22, 1963." Alexander J. Krekich, Vice Admiral, U. S. Navy (Retired); B.S. U.S. Naval Academy 1964, M.S.A. George Washington University, 1972; U.S. Army Command & General Staff College, 1973; and Naval War College, 1978. "I extend personal thanks to Jim Norvell for his deep insights, for connections not uncovered anywhere else, and for bringing us nearer to the solution to the most horrific crime in American History, horrific for what it did to one man and his family, horrific for what it did to America, and horrific for the failure of the authorities to mete out justice." Barr McClellan, B.A., J.D., University of Texas, author of Blood, Money and Power, How LBJ Killed JFK, and former law partner with LBJ's attorney, Ed Clark. "Jim Norvell's historical novel is a truly remarkable study of a broad range of facts surrounding a single individual. What he has carefully developed is almost unthinkable to well-adjusted human beings. To my knowledge, this depiction has not been accomplished before in our time, and he should be commended for all the long years of effort that it required. I found that his identification of LBJ as a narcissist is quite well-founded. There is a long and well-established history of those traits among world leaders in every field, many in very public roles. Health care professionals have identified and articulated in textbooks different types of narcissism and their symptomatic traits, some of which are incredibly destructive and actually evil. Jim's novel acutely and accurately displays the personification of pure evil in LBJ. I think he has written a serious best-seller which will lead readers to thoughtfully and carefully examine the traits and actions which our public figures display." Ray C. Witter, Rear Admiral, U.S. Navy (Ret.), B.S. U.S. Naval Academy, M.S., Engineering Accoustics, Naval Postgraduate School

Avant-garde art between 1910 and 1950 is well known for its use of "primitive" imagery, often borrowed from traditional cultures in Africa and Oceania. Less recognized, however, is the use United States artists made of Native American art, myth, and ritual to craft a specifically American Modernist art. In this groundbreaking study, W. Jackson Rushing comprehensively explores the process by which Native American iconography was appropriated, transformed, and embodied in American avant-garde art of the Modernist period. Writing from the dual perspectives of cultural and art history, Rushing shows how national exhibitions of Native American art influenced such artists, critics, and patrons as Marsden Hartley, John Sloan, Mabel Dodge Luhan, Robert Henri, John Marin, Adolph Gottlieb, Barnett Newman, and especially Jackson Pollock, whose legendary drip paintings he convincingly links with the curative sand paintings of the Navajo. He traces the avant-garde adoption of Native American cultural forms to anxiety over Industrialism and urbanism, post-World War I "return to roots" nationalism, the New Deal search for American strengths and values, and the notion of the "dark" Junglian unconscious current in the 1940s. Through its interdisciplinary approach, this book underscores the fact that even abstract art stems from specific cultural and political motivations and sources. Its message is especially timely, for Euro-American society is once again turning to Native American cultures for lessons on how to integrate our lives with the land, with tradition, and with the sacred.
