*significantly affected.  
Risks to minerals supplies  
can include a sudden  
increase in demand or  
the possibility that  
natural ores can be  
exhausted or become too  
difficult to extract.  
Minerals are more  
vulnerable to supply  
restrictions if they come  
from a limited number  
of mines, mining  
companies, or nations.*

# Download Free Safety Datasheet

*Baseline information on minerals is currently collected at the federal level, but no established methodology has existed to identify potentially critical minerals. This book develops such a methodology and suggests an enhanced federal initiative to collect and analyze the additional data needed to support this type of tool.*
