Postage stamps have evolved quite a bit since Great Britain's 1840 Penny Black, the world's first adhesive postage stamp. From simple designs featuring the monarch to works of art literally condensed to postage stamp size, hundreds of thousands of different stamps have been issued in the past 164 years—and the great majority of them remain reasonably priced for collectors.

With so many stamps to collect from so many countries, a philatelist's choices are virtually unlimited--which can be both a blessing and a curse, especially if you're a newcomer to the art of stamp collecting. Interested in starting a stamp collection, but not sure where to begin? This is the guide for you. Expert Richard Sine fills you in on everything you need to know about selecting, finding, buying, presenting and caring for stamps. An inside look at the obsessive, secretive, and often bizarre world of high-profile stamp collecting, told through the journey of the world's most sought-after stamp. When it was issued in 1856, it cost a penny. In 2014, the one-cent magenta sold at Sotheby's for nearly \$9.5 million, the most money ever paid for a stamp at auction. Following the journey of this highly coveted item, we meet a fascinating gallery of eccentric, rich, and influential characters who have bought, owned, and sold this tiny square of faded red paper. One-cent magentas were provisional stamps, printed in what was British Guiana when a shipment of official stamps failed to arrive. Most were thrown out with the newspapers. But one stamp survived. The singular one-cent magenta has had only nine owners since a twelve-year-old boy discovered it in 1873. He soon sold it—in what many call the worst stamp deal in history—for what would be \$17 today. Among later owners was a wealthy Frenchman who hid the stamp from everyone, including King George V; a businessman who traveled with the stamp in a briefcase handcuffed to his wrist; and John E. du Pont, an heir to the chemical fortune, who died in prison after murdering Olympic wrestler Dave Schultz. Together, their stories form a peculiar global history of immense wealth and obsessive desire.

From the bestselling author of Lawrence in Arabia, a piercing account of how the contemporary Arab world came to be riven by catastrophe since the 2003 United States invasion of Iraq. In 2011, a series of anti-government uprisings shook the Middle East and North Africa in what would become known as the Arab Spring. Few could predict that these convulsions, initially hailed in the West as a triumph of democracy, would give way to brutal civil war, the terrors of the Islamic State, and a global refugee crisis. But, as New York Times bestselling author Scott Anderson shows, the seeds of catastrophe had been sown long before. In this gripping account, Anderson examines the myriad complex causes of the region's profound unraveling, tracing the ideological conflicts of the present to their origins in the United States invasion of Iraq in 2003 and beyond. From this investigation emerges a rare view into a land in upheaval through the eyes of six individuals—the matriarch of a dissident Egyptian family; a Libyan Air Force cadet with divided loyalties; a Kurdish physician from a prominent warrior clan; a Syrian university student caught in civil war; an Iraqi activist for women's rights; and an Iraqi day laborer-turned-ISIS fighter. A probing and insightful work of reportage, Fractured Lands offers a penetrating portrait of the contemporary Arab world and brings the stunning realities of an unprecedented geopolitical tragedy into crystalline focus.

The definitive report on what caused America's economic meltdown and who was responsibleThe financial and economic crisis has touched the lives of millions of Americans who have lost their jobs and their homes, but many have little understanding of how it happened. Now, in this very accessible report, readers can get the facts. Formed in May 2009, the Financial Crisis Inquiry Commission (FCIC) is a panel of 10 commissioners with experience in business, regulations, economics, and housing, chosen by Congress to explain what happened and why it happened. This panel has had subpoena power that enabled them to interview people and examine documents that no reporter had access to. The FCIC has reviewed millions of pages of documents, and interviewed more than 600 leaders, experts, and participants in the financial markets and government regulatory agencies, as well as individuals and businesses affected by the crisis. In the tradition of The 9/11 Commission Report, "The Financial Crisis Inquiry Report" will be a comprehensive book for the lay reader, complete with a glossary, charts, and easy-to-read diagrams, and a timeline that includes important events. It will be read by policy makers, corporate executives, regulators, government agencies, and the American people.

To do its part in the war effort, the U.S. Mint changed from a copper cent to a zinc-coated steel version for one year, in 1943. Rumor quickly spread that anyone who found a 1943 copper cent would be rewarded with a car from Ford. Now you can display your collection of the legendary Lincoln cents of 1909 to 1958 in this beautiful four-panel coin folder. Larger in size than the average folder, this unit has room for 144 coins, the most of any similar folder.

Presents a six-volume catalogue showing postage stamps from the United States, the United Nations, and the other countries of the world and their current values.

"Jeffry Smith updates the earlier release of Col Timothy T. Timmon's Commanding an Air Force Squadron (1993). In this book, which includes a foreword by Gen John P. Jumper and an introduction by Colonel Timmons, USAF, retired, Colonel Smith relies on the vast "insights, experiences, and recommendations" of former and current commanders to identify the attributes of a successful commander at multiple levels. He identifies some issues commanders face regardless of the level of command, including counseling personnel, dorm inspections, commanders' calls, money management, and the roles of spouses and families. According to Colonel Smith, the conduct of individuals in times of crises is the truest barometer of a good commander."--Publisher website.
